

For almost 35 years, Hospice Ministries, Inc., has provided much needed end of life care for patients and families in Central Mississippi. Over 20,000 patients, even those with no payment source, have received care in their homes, our inpatient hospice facility, hospitals, and nursing homes. Due to many changes in healthcare, the Board of Directors of Hospice Ministries, Inc., has made the difficult decision to close its inpatient facility in Ridgeland on April 30, 2023.

Closing the inpatient facility will allow Hospice Ministries to put more focus on providing end of life care to patients in their “homes”, whether it be their personal residence, a nursing home, or an assisted living facility. Just as it has done since 1988, Hospice Ministries will continue to promote its mission of ensuring that Life Matters with everyone having the right to a quality end of life experience.
